Instalment Agreement

What you get out of the deal is a finance package where repayments are payable in regular monthly Instalments over an agreed period and ownership passes automatically at the end of the term.

Instalment Agreement with Balloon

Instalment Agreement with Balloon is a way of acquiring a vehicle with lower monthly Instalments, and a final balloon payment that transfers ownership to you. A customer is liable for the balloon payment which is specified at the outset of the agreement. The customer has the option to refinance or settle the balloon, when the final balloon payment is made, ownership is transferred to the customer.

FlexiFix: Fixed monthly payments with the flexibility of a variable rate.

In the move to manage rising expenses and stretch budgets, customers often choose to use fixed rate financing as a means to curb against anticipated interest rate hikes. This finance product allows you to have control over your monthly vehicle repayments by minimising the immediate impact of interest rate increases, whilst the benefit of rate decreases will still be enjoyed when they occur. FlexiFix enables you to budget better by allowing you to have fixed payments until the penultimate payment. The last payment absorbs all increases, or decreases that may occur with interest rates.

FlexiFix benefits

- ▶ Fixed capped monthly repayments (until the penultimate Instalment)
- ▶ Better budgeting
- ▶ Less concern about the immediate impact of interest rate increases
- ▶ Provides certainty and payment guarantee to customers
- ▶ Should the customer wish to re-finance the last payment, Mercedes-Benz Financial Services can assist by refinancing this amount on a new agreement for an agreed term
- ▶ Unlike fixed rate contracts, FlexiFix enables the customer to benefit from interest rate decreases. Here, an automatic decrease in the last payment would take place. Once again, the fixed monthly payments would be unaffected

Finance Lease

Lease a vehicle for an agreed period with the option of ownership. This agreement allows you to lease the vehicle for an agreed period with the option of ownership. Alternatively, the lease may be extended at the end of the agreement period.

Benefits of Leasing

- ▶ Option to take ownership of the vehicle or extend the lease at the end of the agreement;
- ▶ Lease payments are tax deductible;
- ▶ VAT capitalised at the outset of the agreement.
- ▶ Balloon option available for lower monthly repayments.
