Is your Fortuner Dealer

**STYLED FOR THE CITY.
BUILT FOR THE WILDERNESS.**

“ Tougher than we can imagine,
Cool Styling that conceals True
4WD Performance ”

My entire development team was passionate about creating an ‘authentic SUV’, which we chose to interpret as a three-row, seven-seat Space Utility Vehicle. While this made it clear what was needed on the inside, we also knew that we needed a design that could be appreciated when viewed from the outside.

Customers feel a sense of pride in owning a vehicle with full-fledged 4WD capability. So even if they are just using it around town, we needed to enhance 4WD performance. I am certain the New Fortuner’s enhanced all-terrain capabilities will satisfy even the most demanding customer.

In the New Fortuner, customers will find value and prestige that goes beyond their expectations. I am confident that we have honed Fortuner into a machine that can take its rivals head-on, even in the highly competitive SUV category.

The All New Fortuner is a gorgeous machine, the sleek lines on the elegant curves make a powerful style statement. The solid metal armour conceals the brute engine that's just waiting to take on every terrain. The host of new features are guaranteed to excite you every time you switch on the ignition. **The powerful now becomes a style icon too.**

MAKE A STATEMENT. DON'T SAY A WORD.

A glance in the direction of the Fortuner is a tough ask. That's why you will often spot onlookers what can only be described as 'ogling' at the car. It is a stunning vehicle, it delivers performance and looks good from every angle. Moreover, the surrounding chrome beltline on the sides adds a sense of luxury and style. No wonder it **turns heads** wherever it treads.

INCITE AWE. **INSPIRE EVERY ONLOOKER.**

They say that the true test of a vehicle is when you look behind to take one last glimpse even after you've parked it. That's something every Fortuner owner has felt and will do even more with the All New Fortuner. It packs in a punch and is a pleasure to drive on and off the roads, but what makes it stand out is its superior styling. Go ahead, give the people on the streets **something to look up to.**

But then sometimes the wind in your face and the view from the windshield is all the planning you need. This is the car for the rulebreakers, the nomads, the unplanners, the whim warriors.

The **Electronic Drive Control** makes switching between different drive modes as easy as turning a knob. Literally. To keep it short if you have a will, your wheels will find you the way. The **DAC** and **HAC** ensure you reach your destination no matter how steep the climb uphill or how treacherous the slope.
