

TOYOTA

LEAD THE WAY

HILUX

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

A striking design with bold, aggressive lines puts the Hilux at the forefront of modern bakkies the world over. With new highly advanced engines, an updated six-speed* transmission and an even more rigid, robust frame, the legendary status of the Hilux has been taken to a whole new level. Furthermore, six new auto models have been added to the range.

CONSIDERED THE BAKKIE OF CHOICE FOR ANYONE WHO NEEDS TO TACKLE ANY CHALLENGE, THE HILUX WILL WITHOUT A DOUBT BE THE TOUGHEST BAKKIE AROUND. WITH BETTER TORQUE, MORE DRIVING ENJOYMENT, MORE LUXURY COMFORTS AND BETTER STABILITY ON AND OFF-ROAD. THE HILUX SETS THE BAR FOR THE NEXT GENERATION.

*Available on selected models only

A NEW GENERATION OF ADVANCED ENGINES
GREATLY ENHANCED OUTPUT POWER
BETTER TORQUE
IMPROVED FUEL CONSUMPTION
BETTER LOW SPEED OFF-ROAD PERFORMANCE
LOWER CO₂

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

DRIVE THE FUTURE OF TOUGH

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

START

NEW TECHNOLOGY HAS BEEN DEVELOPED TO INCREASE CAPACITY AND ENGINE OUTPUT. LOW-SPEED TORQUE CAPABILITIES GIVE GREATER CONTROL AND HANDLING, WHILE THE SIX-SPEED* TRANSMISSION UNLEASHES THE BEAST IN SITUATIONS WHERE

YOUR

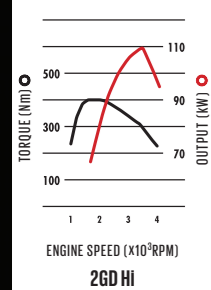

ACCELERATION, OVERTAKING OR SPEED IS OF THE ESSENCE. THE SOPHISTICATED TORQUE MEANS BETTER FUEL CONSUMPTION AND A MORE ENJOYABLE DRIVING EXPERIENCE.

2.4GD

The **2.4 GD diesel engine** has been boosted with increased low- and high-torque options. The low-torque option delivers 110 kW of power at 3400 r/min and 343 Nm of torque at 1400-2800 r/min. The high-torque 2.4 GD-6 produces 110 kW of power at 3400 r/min and 400 Nm of torque at 1600-2000 r/min. In the latter, peak torque arrives as early as 1600 r/min, improving fuel efficiency while still delivering on engagement and acceleration.

2.8GD-6

The **2.8 GD-6 diesel engine** offers torque of 420 Nm at 1400-2600 r/min on the manual transmission. This is provided through the wide powerband and is very useful when overtaking or towing.

The 2.8 GD-6 engine also offers 450 Nm at 1600-2400 r/min on automatic transmission models.

For stronger acceleration, peak torque is available from 1600-2400 r/min. Power is at 130 kW @ 3400 r/min for both transmissions.

2.0VVTi

With the three newly designed **petrol engines**, engine functionality has been revolutionised to reduce fuel consumption. The **2.0 VVTi petrol engine** is available on the workhorse models only. It delivers 102 kW of power at 5600 r/min and torque of 183 Nm at 4000 r/min.

2.7VVTi

In the **2.7 VVTi 4-cylinder petrol engine**, the torque has been pushed to 245 Nm @ 4000 r/min and power of 122 kW @ 5200 r/min.

4.0V6

The **4.0 V6 petrol engine** produces power of 175 kW @ 5200 r/min and torque of 376 Nm @ 3800 r/min.

POWER HUNGRY VERSUS ECO LIFE

DRIVE MODE SELECT*

has been added on the Hilux giving you two options:

ECO DRIVE MODE*

Simply activate the switch and a 'gentler' system will kick in. When in use, Eco Drive softens acceleration input and uses less power - and less fuel - on features such as the heating, cooling and ventilation systems.

Similarly, choose POWER DRIVE MODE*

for a more aggressive, engaged drive. This option works by sharpening and heightening throttle response.

*Available on selected models only

TRADEMARKED AS INTELLIGENT MANUAL TRANSMISSION (iMT)*

*Available on selected models only

Developed to accommodate the sophisticated torque system in the new engines, the newly designed six-speed* manual transmission achieves smooth gear changes and gives you a flexible, dynamic driving performance at any speed.

This advanced innovation pushes Toyota right to the front of the pack. In the Hilux, this means that your moves are anticipated and responded to intelligently: the engine speed is matched to the transmission speed, resulting in gear changes with no disruption. Changing up, the engine speed is matched to the next level - no jerks, no uneven acceleration noises. During downshifts the same happens, keeping the revs smooth and seamless.

— **A TOUGH SPORT** —

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

STEADY NOW

MAKING INROADS, OFF-ROADS

Through muddy terrain and crumbling mountain passes, the differential lock* secures traction and ensures that you can get out of anywhere with complete ease.

There'll be no shocks on this journey: the mounting of the front shock absorbers is now more rigid, resulting in excellent driving comfort and handling stability. The leaf spring rear suspension is wider apart than before, making the Hilux more secure and stable - even when loaded to the hilt. And you can take corners with complete confidence, as power steering has been improved to match all other innovations.

KEEPING IT UNDER CONTROL

When towing, Trailer-Sway Control (TSC)* stabilises the connection between your Hilux and a trailer so that crosswinds, under-winds and variations in the road surface mean nothing to you. Steering operations are stronger: TSC suppresses extra movement before it gets beyond your brake or steer range, making sure the trailer is steady and stays completely within your control.

THE TOUGHEST 4X4 BY FAR

The Hilux is a superior 4x4* and off-road vehicle in all ways. Starting at the base, the 18"* all-terrain tyres have a new tread for superior grip and improved comfort, both on- and off-road. It follows that because suspension has been bettered, wheel articulation must improve too: when traversing rocky terrain, the up and down movement range of the left and right wheels balance out to create a more stable, comfortable drive. And no matter what you're driving over, the stronger, wider undercover protects your Hilux from damage.

The dashboard has also been modernised: the lever on the centre console has been replaced with an electronic transfer switch*. At any given moment, simply flip the switch and choose between 4WD, 4WD LOW and 2WD.

WHAT GOES

YOU'RE LOADED UP: YOU'RE ON YOUR WAY DOWN A GRAVEL ROAD, MAYBE A SHEER DROP ON THE LEFT, MAYBE A MOUNTAIN CRAG TO YOUR RIGHT - BRAKING'S NOT YOUR FRIEND. IN THE HILUX YOU CAN SWITCH ON THE DOWNHILL-ASSIST CONTROL (DAC)* SYSTEM. DAC COUNTERACTS THE ENGINE BRAKE SYSTEM AND CONTROLS

UP MUST

BRAKE FLUID PRESSURE TO MAINTAIN LOW VEHICLE SPEED, ENSURING THAT YOUR TYRES DO NOT LOCK. AT THE SAME TIME, THE BODY OF THE HILUX REMAINS STABLE AND STEERING IS ENTIRELY CONTROLLABLE. IT'S NOT JUST THE DOWNS THAT HAVE BEEN TAMED. WHEN GOING UP, HILL-START ASSIST CONTROL (HAC)* PREVENTS THE VEHICLE FROM ROLLING BACK.

COME DOWN

*Available on selected models only

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

The most striking features are the bullish, prominent front grille and the powerful LED* headlamps - a combination that sets the Hilux apart from the pack. The Raised Body Raider and Raider models take it even further with additional front LED fog lamps. 18" alloy wheels accentuate the design on selected models.

The bold, aggressive, design runs throughout the vehicle. From the side, you'll see sculpted wheel flares and integrated over-fender aero stabilising fins on the exterior mirrors.

TOUGH ENOUGH TO MAKE YOUR HEART SKIP A BEAT. THE FINISHES ON THE HILUX HAVE BEEN STREAMLINED TO DELIVER A MORE MASCULINE, ROBUST OUTLINE.

The exterior mirrors have integrated indicators*, retract automatically* and are electronically adjustable. The exterior mirrors, door handles and front grille of the Raised Body Raider and Raider models are finished in chrome. Black side steps allow for easy access on all SRX, Raised Body Raider and Raider models.

*The Hilux is completed with a reinforced frame to make it more durable. It's tougher, stronger, more rigid and has been designed specifically to take on the toughest of conditions.

THE LUXURY — OF TOUGH

—

REAR SEAT CUPHOLDERS*

60:40 SPLIT*

PACKING SMART

There's no skimping on comfort or style - advanced form meets function in a strong yet elegant combination. The new design creates a vehicle that is both tough and functional.

On the sleek instrument panel, the new 7" touchscreen audio* system is a focal point. This touchscreen is DVD* compatible and allows easy access to features like Bluetooth*, fuel consumption information and audio. This system comes with a minimum of four* or a maximum of six* speakers. The SRX, Raised Body Raider and Raider models all come standard with a USB port for music. Across the range, legroom has been increased and improved seat ergonomics mean exceptional driving comfort for the driver and passengers.

There is also a 4.2" Thin Film Transistor (TFT) Multi-Information Display*. Split into four sections, it gives you easy access to info such as outside temperature, how many kilometres you've travelled and how much longer you can go before you need to fill up. These options can be accessed through a switch* on the steering wheel.

On the easy-grip, four-spoke steering wheel there are also switches* to control your cellphone, info display and audio. The Raised Body Raider and Raider models up the game with a leather steering wheel, automatic air conditioner**, cruise control*** and a reverse camera***.

*Available on selected models only

**Double Cab models only

***Double Cab and Xtra Cab models only

When it comes to space, the Raised Body Raider and Raider Double Cab interior layouts have been configured to provide more space options. Simply manoeuvre the convenient tip-up rear seats into a combination of the 60:40 split and you'll either increase storage area or make more room for your fellow travellers.

There's space for all the extras you can possibly think of, thanks to front seats with back pockets*, an overhead console** and cup holders. In the centre there's a console box. There is also a dual-compartment glove box and the top compartment acts as a cool box*, keeping items inside cool.

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

The Double Cab will carry you, your passengers and all your gear to any destination with ease. The Double Cab models combine toughness, comfort and luxury. Chrome* exterior finishes add even more style and all the standard safety features make your journey that much safer and more enjoyable.

YOU ASKED FOR XTRA — TOUGH YOU GOT IT

ACCESSORISED MODEL SHOWN 2.8 GD-6 RB RAIDER 6MT

**IT'S A COST-EFFECTIVE SOLUTION:
THE XTRA CAB NOT ONLY OFFERS
YOU MORE STORAGE SPACE, YOU'RE ALSO
GETTING A VEHICLE THAT COMBINES
FUNCTION AND STYLE.**

The Xtra Cab has been designed to improve cabin accessibility and convenience. The models have been fitted with rear-access doors. But just because it looks smart, doesn't mean it won't play rough. All the advanced features you expect from a Hilux, plus the safety and reliability of choosing Toyota, are to be expected. The Xtra Cab models all come with safety features in the form of **Brake-Assist (BA)**, **Anti-lock Braking System (ABS)**, **Electronic Brake-force Distribution (EBD)**, **Vehicle-Stability Control (VSC)**, **Trailer-Sway Control (TSC)** and **Hill-Start Assist Control (HAC)**.

Not only has the Hilux been kitted out with seven airbags* (distributed along driver, front passenger*, curtain shield*, driver knee* and front side* airbags), but extra-strength steel and high-strength structures have been reinforced to reduce the possibility of passenger injuries.

Impact-absorbing structures have also been incorporated in the engine hood and front fender to reduce injury to the head and legs of pedestrians during a collision.

Safety features include:

ANTI-LOCK BRAKING SYSTEM (ABS)

ABS regulates the hydraulic pressure of the brakes, and a load-sensing proportioning and bypass valve optimise the effectiveness of the rear brakes.

ISOFIX CHILD RESTRAINT SYSTEM**

The ISOFIX child restraint system assists and secures your children in the rear seat.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

EBD ensures that you're always in control, even in potentially dangerous situations.

VEHICLE-STABILITY CONTROL (VSC)*

VSC keeps power and drive balanced and responsive to the situation.

BRAKE-ASSIST (BA)

BA strengthens the power on the brakes, in the case of a panic stop.

* Available on selected models only

** Double Cab models only

**SAFETY
— EVOLVED**

**YOU JUST
CAN'T
BREAK
— TOUGH**

Advanced security technology has been incorporated on all models. As soon as you start moving, the auto door lock is activated. All models are also fitted with remote central locking. Once locked, the anti-theft system is activated. It features an independently powered alarm, immobiliser, and ultrasonic glass breaking and movement sensor, ensuring that your Hilux remains just that - yours.

**TOUGH ON THE ROAD,
NOT ON THE ENVIRONMENT.**

Hilux drivers share a passion for adventure and the beauty of the great outdoors. That's why we're dedicated to preserving the environment for future generations. The fuel-efficient engines of the Hilux range help reduce CO₂ emissions and the carbon footprint of the vehicles. Plastics that are highly-recyclable are used in the instrument panel, door trims and the majority of the interior and exterior components. The plastic components have also been uniquely designed so that they are easier to dismantle for recycling.

Toyota is serious about combating the problems associated with waste tyres in the country and has therefore taken up its producer responsibility as defined by the Waste Management Act of 2008.

Waste Tyre Registration Number:
TPREG0031GAU

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, Genuine Parts are essential in maintaining the safety and reliability of your vehicle. **Genuine Parts** comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Hilux without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (6 years/unlimited and 8 years/unlimited) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 7 years or 200 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Hilux by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service** not only promises accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND

Download the **MyTOYOTA** App from the Google Play Store or the Apple iStore to receive the latest Toyota news, keep an eye on your vehicle's finance and book your vehicle for a service. You can also book a test drive or arrange roadside assistance, all on your phone.
