This vehicle has been professionally armored by Alpine Armoring Inc. to the highest of standards.

STANDARD ARMORING FEATURES

- Protection against high power rifles such as 7.62x39, 5.56x45, 7.62x51, M193, and M80 ball
- Original glass is removed & replaced with certified multi-layered ballistic glass/polycarbonate
- All opaque materials surrounding the passenger area are replaced with certified ballistic steel
- Roof (min. 60° angle) using ballistic steel (protection against DM51 grenade/fragmentation)
- Floor (anti-mine protection including DM51 grenade/fragmentation) using ballistic steel
- Additional areas of armoring are fuel tank, battery, and computer module
- Additional protection for undercarriage & areas surrounding the radiator
- Rear partition ballistic glass with swing door and locking mechanism
- Patented designed armoring for firewall and wheel wells
- Complete set of four (4) high-grade run-flats installed

THIS VEHICLE IS A EUROPEAN SPECS VEHICLE

THEREFORE, IT DOES NOT COME WITH A WINDOW STICKER

AS WOULD NORMALLY BE AVAILABLE FOR U.S. ORIGIN VEHICLES

ARMOR LEVEL

A9

CEN B6 NIJ III UL 7
