

## MODEL FEATURES

The Mulsanne features a re-calibrated V8 engine, with a 13% efficiency improvement and 50 miles greater range. Its sleek yet subtle silhouette is free from needless clutter such as antennae. But it's the quality of the experience inside the car that makes its phenomenal performance so striking.

With a wealth of handcrafted details, the Mulsanne has been built from the ground up around the concept of a peerless travelling experience. This is a world where minute details make all the difference. This is the world of the Mulsanne.
