Specifications

G63 (463.277)

- MSRP \$TBD
- Handcrafted AMG 4.0L V8 Biturbo engine
- 577 hp
- 627 lb-ft
- 4.4 sec (0-60 mph)
- Launch date: 10/2018

Handcrafted AMG 4.0L V8 biturbo engine (M177 E40DEH LA AMG)

Handcrafted AMG 4.0L V8 Biturbo engine (M177 E40DEH LA AMG) Standard

Aluminum crankcase featuring a racing inspired closed-deck design

- The area around the cylinders' coolant enclosure is closed off at the top and is only perforated by cooling channels
- This makes the engine block more rigid and able to withstand greater loads

Forged, lightweight aluminum pistons – high performance and low weight

Two Twin-scroll turbochargers with separate exhaust channels

- Positioned between the cylinder heads for faster response
- Inspired by Formula 1
- Keeps engine compact, improves turbo response and lowers emissions
- Separate exhaust channels prevent turbos from having a negative impact on each other during load/directional changes, and enables faster spooling/buildup of turbo pressure

Dynamic Engine Mounts – Adjust to DYNAMIC SELECT mode and driving conditions

- “Soft Mounts” for Comfort – Reduces engine noise and vibration
- “Hard Mounts” for Sport – Increases steering precision

Variably Adjustable Inlet and Outlet Valves

- Filled with sodium
- Light weight

AMG SPEEDSHIFT TCT 9-Speed Transmission

AMG SPEEDSHIFT TCT 9-Speed Transmission

Standard

AMG SPEEDSHIFT 9G-TRONIC – from extremely sporty to efficient and comfortable

With 9 gears and double-declutching function, this transmission allows extremely dynamic acceleration and ultra-short shift times as well as a fuel-saving driving style. The systematic further development of hardware and software has made it possible to further optimize the reaction times. This means that the driver's shift commands can be carried out faster than ever before. Gear changes are performed with no interruption in tractive power. Ultra-fast, responsive multiple downshifts are another forte of the AMG SPEEDSHIFT 9G-TRONIC. The driver can change via kickdown directly from 9th into 6th or from 5th into 2nd gear, for example.

The AMG SPEEDSHIFT 9G-TRONIC at a glance:

- Drive program-specific drive settings (according to selected AMG DYNAMIC SELECT drive program) with different characteristic curves for accelerator pedal and shifting:
 - "C" (Comfort): Particularly efficient and comfortable
 - "S" (Sport): sporty gearshift characteristics with shorter shift times
 - "S" (Sport+): even sportier gearshift characteristics with the shortest shift times
- Manual mode "M", selectable using M button: Transmission responds even faster to manual shift commands, the driver's shift commands are carried out at unprecedented speed, drive train reacts immediately and precisely
- Momentary M mode: Change to "M" by actuating the shift paddles
- Partial ignition interruption during upshifts for an emotive sound
- Further optimized reaction times for fastest-possible execution of the driver's shift commands thanks to consistent further development of hardware and software
- ECO start/stop function and gliding function in drive program "C"
- Automatic double-declutching function when downshifting
